GREAT LOSS IN TEXAS.

The High Water Destroys a Vast Amount of Personal Property at Dallas, Texas.

A WRECK ON THE CHESAPEAKE & OHIO.

One Member of a Theatrical Troupe Killed and Several Badly Injured—Other Mishaps.

STAUNTON, W. Va., April 29.—The engine of the fast train on the Chesapeake & Ohio Road en route to Washington became detached about 3 o'clock. The brakes would not work and the car derailed with terrible speed through the village.

Several cars left the track, and one sleeper, carrying fifteen members of the "Pearl of Peoria" company, was overturned.

Miss Myrtle Knott was taken out of the wreck dead and Edith Miller was removed with a leg broken. Louis Harrison and several others of the troupe were slightly injured. The company was to play at Baltimore to-night.

Those known to have been injured are:

W. J. KIRKPATRICK of New York, wounded in the leg and in the head; will probably recover.

E. M. SLOMAN of Cincinnati, slightly injured.

Ernest MILLER of New York, leg broken.

Mrs. EDWARD WOOD leg bruised.

Miss SISTER FISHER, concussion of the spine and contusion of the abdomen; injuries considered serious.

Louis HARRISON, scalp wound.

Miss ETHEL GALT, sprained ankle.

All of the injured except Mr. Kirkpatrick belonged to the "Pearl of Peoria" troupe. There were six coaches, two of which were sleepers. No one was injured except those in the rear sleeper. The engine and other cars rushed on for a mile when the engineer, on an upgrade, got control of the train. The accident was caused by a brake failing, three cars falling among the air-brake connections, rendering the brakes useless and causing the engineer to lose control of his engine. The wounded were taken to the Virginia hotel and the body of Miss Knott to an undertaker's establishment.

GREAT LOSS IN TEXAS.

High Water Destroys a Vast Amount of Property in Dallas.

DALLAS, Texas, April 29.—There are 400 homes in Dallas and the suburbs from which the inhabitants have been driven by the overflow in the Trinity river. The river at this rise was a few inches higher than that of 1866, which was the highest recorded. The water last night ran through the windows of the first floor of the Calvary school and damaged large amounts of wheat as well as the machinery and bedding.

The St. Louis Pressed-Brick company are heavy losers. Two thousand bales of cotton were soaked at the compress, foot of Lamar street, and the Dallas Brewing company will suffer considerably from inconvenience caused by water. The Eureka steamship has suspended operations, as the water is several feet deep in ship building.

As the mail was being transferred from one train to another on the Texas & Pacific a pouch of registered mail slipped off the hand car and sunk in the swift current before it could be recovered. The city water works are useless. The damage done by the flood in Dallas will amount to several hundred thousand dollars.

DISTRESS AT GROSS TETZ, LA.

GROSS TETZ, La., April 29.—The little town of Gross Tetz presents a pitiful sight from a distance. It looks like a desolate and dead ocean. The protection levee in front and opposite the Texas & Pacific depot has given way, letting the angry waters directly in upon the already inundated and helpless town. The people have their stock on the platforms and Indian mounds and are in need of immediate assistance. The situation is distressing.

THE STRUGGLE BEGINS.

Carpenters Arriving in Chicago to Take the Strikers' Places.

CHICAGO, April 29.—The lines laid down by both sides in the carpenters' strike are well-defined, and both sides have begun the struggle.

Non-union men, in numbers larger than even the strikers care to admit, are pouring into the city to take the places left by the master carpenters, anticipating the fruitless conferences of Saturday, had agents in other cities securing all the non-union men possible. The strikers are vigilant, however, and this morning captured a large number of non-union men and induced them to refuse to go to work. A boss carpenter named Smythe attempted to build a non-union man at the door on a building on North avenue, but the strikers drove the men away. One of the non-union men was assaulted by a striker and given a black eye. The case was reported to the police, and a dozen officers in citizens' clothes were sent out from the East Chicago avenue station to watch all incomplete buildings where non-union men were expected to go to work. The strikers were to be given orders to watch the strikers. Chief Marsh says that non-union men will be protected in their work if it takes the entire police force.

In the meantime the Boss Carpenters' association and the carpenters' council are making arrangements to put 4,000 carpenters at work. Several minor points not yet settled between the two associations have been arranged, but it is not thought probable that any considerable number of men will be set at work before the week is out.

A teamster in the employ of William Evers, one of the largest carpenters and contractors in Chicago, was this morning assaulted by strikers.

The assault occurred on the West Side. The teamster was hauling some carpenters' tools and was stopped by a gang of strikers. The teamster was pulled from the wagon and given a severe beating. The strikers cut the harness to pieces and wrecked the wagon.

Ois S. Favor is acting as a sort of mediator between the new bosses' association and the carpenters' council, and this morning the arbitration committee of the association held a consultation with Mr. Favor, the object being to obtain the consent of several prominent business men and judge to act as an arbitration committee between the two associations.

Tourists.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Fig, as it is most pleasant and effectively the kidneys, liver and spleen, and relieves fevers, headaches and other forms of sickness. For sale in 50c and \$1.00 bottles by all leading druggists.

Money to loan by D. Conner.

SPARKS FROM THE WIRES.

CHARLES PHILLIPS of Martinsville, Ind., was fatally shot while playing with a loaded pistol.

WILLIAM CORELY, aged 60, of Wadena, Minn., was struck by a passenger train and killed.

THE United States irrigation commission met at Huron, S. D., to-day to investigate irrigation by artesian wells.

COMMISSIONER RAUM of the Pension Bureau, and Mrs. Raum, have gone to Peoria, Ill., on a short visit to their son.

JERRY MURPHY and John Nulan were arrested at Joliet, Ill., Sunday for breaking into freight cars of the Santa Fe.

E. M. Brown, John McNamara, James Parker, and Clint Parker have been arrested at Missouri Valley, Iowa, on a charge of burglary.

JOHN, the 16-year-old son of Bruce Speed, was fatally hurt at Crawfordville, Ind., while attempting to jump off a Monon freight train.

MICHIGAN lumber mills are now all running with plenty of logs. Three hundred men have been added to the Marquette Booming company's force.

GOVERNOR FIFER has issued a requisition on the Governor of Michigan for the surrender of James Walpole, wanted in Quincy to answer a charge of burglary.

In the United States Circuit Court at Pittsburgh Judge Atcheson refused to grant the petition of the income bondholders asking for the sale of the Allegheny Valley railroad.

MISS SLUMAN of Cincinnati, slightly injured.

EDWARD MILLER of New York, leg broken.

EDWARD WOOD leg bruised.

MISS BRUNA FISHER, concussion of the spine and contusion of the abdomen; injuries considered serious.

LOUIS HARRISON, scalp wound.

MISS ETHEL GALT, sprained ankle.

All of the injured except Mr. Kirkpatrick belonged to the "Pearl of Peoria" troupe. There were six coaches, two of which were sleepers. No one was injured except those in the rear sleeper. The engine and other cars rushed on for a mile when the engineer, on an upgrade, got control of the train. The accident was caused by a brake failing, three cars falling among the air-brake connections, rendering the brakes useless and causing the engineer to lose control of his engine. The wounded were taken to the Virginia hotel and the body of Miss Knott to an undertaker's establishment.

PARIS, April 29.—The well-known western ranchman, Marquis de Mores, who lately has posed as an active friend of the laboring man and the Socialists, was arrested here yesterday, though without difficulty. As a candidate for a seat in the municipal council the Marquis had an electoral office in the Rue Sainte Anne, whither M. Duke, the police commissioner, repaired early in the morning.

Dr. Felt, a Buffalo scientist, with a patent resuscitating apparatus, has arrived and is the guest of Warden Durston. He is here at the request of the Warden, to see that the first execution by electricity goes off smoothly. The doctor tried his patent on the animals which were put to death by electricity at the prison in January last when the machinery was first tested. It failed at that time to resuscitate the subjects and Dr. Felt, a Buffalo scientist, with a patent resuscitating apparatus, has arrived and is the guest of Warden Durston. He is here at the request of the Warden, to see that the first execution by electricity goes off smoothly. KEMMLER'S LAST HOURS.

The First Execution by Electricity to Take Place This Week.

ALBANY, N. Y., April 29.—Kemmler's last Sunday on earth was spent in much of his year's life—if life can be called—in solitary confinement. He never sees a living soul outside of two guards, his spiritual adviser and occasionally the warden's wife. He occupies his time between meals in studying his pictorial Bible and writing his autograph on cards, of which no has

THE GAZETTE

JANESVILLE TUESDAY, APRIL 29.

STATE OF WISCONSIN.

A PROCLAMATION

BY THE GOVERNOR.

In conformity with law, I, William D. Hoard, Governor of the State of Wisconsin, do

designate:

Wednesday, April 30th next,

as Arbor Day, and recommend that all public

schools and colleges of the state observe the

same by suitable exercises, "having for their

object the imparting of knowledge of horticulture,

and the adornment of schools and public

grounds."

In testimony whereof, I have hereunto set my

hand, and caused the great seal of

the state of Wisconsin to be

affixed, at the capital, in the city of Madison, this 13th day of

March, A. D. 1889.

WILLIAM D. HOARD.

By the Governor: EINSTEIN G. T. MR. Secretary of State.

UNCLE JERRY AND AGRICULTURE.

Recently Secretary Bask issued a

long article on the cause of agricultural

depression, and thus suggested a cure.

There are some papers that have an idea

that Uncle Jerry doesn't know much

about farming. They seem to think he

has been misguided in his tariff dis-

cussion, that some high protectionist has

been coaching him on the point that

there are nearly \$350,000,000 of agricul-

tural imports every year which should

be grown in this country; and would it

be wise if the tariff was high enough?

Uncle Jerry is not to blame for that

statement. He got it from the ways and

means committee, and presumed as a

matter of course that the committee

knew all about it. The trouble with the

committee, and men of sense and intelligence

can see it, is that when it set

down the imported agricultural products

to this country last year as being \$350,-

000,000, it made an error and probably

knew it. What farmers want, the same

as anybody else wants, are the facts and

not misstatements. Every farmer will

be interested in knowing that in that

\$350,000,000 of the so-called agricultural

products imported in the United States,

and which they claim can be raised here,

are tropical fruits, tea, coffee, rice, sugar,

silk, wine, and a lot of other things

which no farmer in Wisconsin or

any other state in the north can raise.

Northern farmers can't raise sugar on

their farms, neither can one-tenth of the

sugar consumed in this country be produced

in the United States. Why then

say that can be produced if it were

taxed high enough?

Does any man who is wise think he

can raise jute and rice and silk on his

farm if the tariff on these products was

high enough? If the tariff was as high

as before, these articles could not be pro-

duced here with any degree of success.

Why then class them as agricultural

products that can be produced with prof-

it.

How long would it take a farmer of

Rock county to get in the way of growing

tropical fruits and oils and such?

Certainly not until he could transplant

the southern sun to Wisconsin and re-

generate our climate, and this he cannot

do notwithstanding the intimation of the

committee of ways and means that a

southern farmer can upset our climate and

make it worse.

Has anyone ever heard of a man

who is wise enough to believe that he

can raise jute and rice and silk on his

farm if the tariff on these products was

high enough? If the tariff was as high

as before, these articles could not be pro-

duced here with any degree of success.

Why then class them as agricultural

products that can be produced with prof-

it.

For extra grades of hard and soft coal,
call on David K. Jeffries.

Money to loan on long time with good
security. METCALF & CROFT.

An elegant line of fancy silk vests just
received at Ziegler's.

BARNUM'S CIRCUS may be along later
in the season, but just now the crowd is
going to Ziegler's to see the new styles
of spring hats. He shows more correct
styles than any house in the city.

BRIEFLETS.

Patronize the Janesville Steam Laundry.

The N. O. W. Club will give a May
party at the Armory May 1st.

Hon W. M. Riot, of Sheboygan, is in
the city. Mr. Root is an ex-member of
the assembly.

Janesville City Lodge No. 90, I. O. O.
F., occupy Odd Fellows' hall this even-
ing—regular weekly meeting.

When you want first class laundry
work, go to the Janesville Steam Laundry.

The case of August Wobiz, charged
with assault on C. C. Peterson, came up
in municipal court this morning, and was
adjourned until to-morrow morning.

Oriental Lodge No. 22, Knights of

Pythias, assemble in regular weekly
meeting this evening—lodge room in
Castle hall, Jeffris block, West Milwau-
kee street.

Mr. J. Forsyth, of Milwaukee, is in
the city in the interests of Mr. A. G.
Wright, the directory publisher. Mr. Wright
has been engaged in the direc-
tory business for the past fourteen years
and during that time has issued each
year the annual edition of the Milwau-
kee city directory. Outside of Milwaukee
his work includes county publications and
during the present summer a complete
directory of Rock county will be issued.

Work has already been commenced under
the direction of Mr. Forsyth, and will
be rapidly pushed to completion.

The Gazette is pleased to state that the
city and county will be furnished with a
reliable work, which is much needed.

AWNINGS AND TENTS.

Hold your orders for tents and aw-
nings. I will soon return to Janesville,
and attend to all orders. Will make and
repair, put up, etc.

J. M. BOSWICK & SON.

For baby carriages, call at Sutherland's.
